New York Press.—The recent outliow of gold to freign countries has called attention to the great quantity of that cole that is annually carried ahroad by American visitors. It is estimated that last year the sum reached \$100,000,000.

The amount of gold brought to the United States last year hy foreign tours are correct \$70,000,000 more gold was taken out than was received by this means. This year the prospects are that the balance will be 'teversed in our favor. Owing to the Chicago Fair less Americans will go abroad, and an unusual number of foreigness will visit the United States.
